SUPERIOR COURT AT WESTERLY

Motion for Dismissal Granted in Kenyon Appeal From Hopkinton Probate Court-Funeral of Joseph Turano-Ministerial Association Meets-Albert Avery Peckham's Funeral at Charleston.

county reconvened at Westerly, Mon-lay with Judge Chester W. Barrows presiding, and the case of Gurdon T. Kenyon in an appeal from the Hop-Kenyon in an appeal from the Hopkinton probate court was called for trial. The probate court issued decree for the removal of Kenyon as administrator of the estate of Moses Hart and named Louis F. Hart, a brother of the decased, to succeed Kenyon.

Immediately after opening of the court Judge Edward M. Burke, counsel for Kenyon, made a motion for the dismissal of the case, ar there was no specific allegation in the complaint, and that the probate court had declined to order the issue of a bill of particulars at the time of hearing in that court. In the petition for repair trial to the court is the court is the court is the court in the probate court had declined to order the issue of a bill of particulars at the time of hearing in that court. In the petition for rethat court. In the petition for re-moval it was stated by Judge Burke that there was refusal to specify when, where and how the adminis-trator had or was wasting the estate. The case comes to the superior court just as it came to the probate court, there reason being given that no in-ventory had been filed, but as there is no definite allegation, there can be no amendment at this time, therefore the case ought to be dismissed. Judge Burke claimed that the petition is void as no facts are stated, that there was refusal to grant a motion for bill of particulars, and no statement was made where there was any waste of the estate on the part of the admininstrator. There were no allegations, no evidence, and not a fair and impar-tial trial in the probate court, and there could be none in the superior court, as the conditions are exactly the same. Judge Burke submitted several decisions of the supreme court of the state in substantiation of his claims, setting forth reasons for dis-missal. He said he was not even ac-

quainted with any charges that were liable to be sprung if the case proceeded, and he was entitled to know them in detail. He might be attacked by airship and submarine, so to speak, and left entirely to the mercy of the court, and that would be contrary to law and legal warfare.

Attorney Archambault, counsel for petitioner, said the petition was drawn in the language of the statute and should be given place in court. He admitted that motion for bill of particulars was filed in the probate court. ticulars was filed in the probate court and denied. Hopkinton is about ten miles from a railway station and on the day the petitioner proposed to fight for the removal, the bill of par-ticulars was asked for and could not be furnished at that time. Kenyon, through his learned counsel, had five months in which to renew application for a bill of particulars. As a mat-ter of fact the administrator is the only one who knows all the particulars, and all the information the appellants can get is from the records. It was learned that there was personal property to the amount of \$1,200 and real estate valued at \$1,000, and that the administrator had stated that he had no money belonging to the es-tate, although some of the property had been sold for \$500. The petition-er for the removal of Kenyon could

only state in the what he knew.

Judge Barrows said that new questions at law had been raised that were not free from doubt, but he believed it to be his duty to grant the motion for dismissal of the case. Mr. Archambault gave notice of intention to appeal to the supreme court.

Court then adjourned to 10.30 Tuesday morning. day morning.

Late Saturday night Chief of Po-lice Brown was called to District No. 6 to remove from that section of the town John West, alias John Austin.

Following the sermon there were five added to the church membership, three—Mr. and Mrs. Marsiand and Mrs. Mary Avery—by letter; and two—Misses Alice Bradford and Ella Gardiner—by baptism. The church was well filled. The service was one of great interest because of the pastor's objection at first, to performing baptism by other than of the pastor's objection at first, to performing baptism by other than immersion, but after powerful consideration he has decided that God wants the younger people brought into the church by faithful Christian work and that the matter of form work and that the matter of form should not be allowed to hurt the cause of Christ. The Goodrich Tire, like the trained

THE old Olympic Game promoters were great for what we call "form." Symmetry, proportion, soundness

and proper balance out-bid bulging muscles for favor-yes, and out-won, too, just as they will Mere bulk never was synonymous with

endurance-and the truth of this statement drives home with a bang, when you apply it to tires. .

F thick, heavy tires were the last word in tire construction, we could wipe out of existence a Goodrich Research and Test Department employing seventy people. We would take off the road a battalion of ten automobiles, that run twenty-four hours a day and every day in the year, grinding tires of all makes to pieces, just for the sake of information to us and eventual economy to the user of Goodrich Tires.

There is where we learn to cut out of a tire the material which gets the user nothing.

Of course, when we stripped tire price lists of their padding-fictitious values-we expected rivals to say we had stripped our tires.

Note the following table of comparative prices on non-skid tires. Columns headed "A," "B," "C" and "D" represent four highly-advertised tires:

Size	Goodrich Safety Tread	OTHER MAKES			
		"A"	"B"	"C"	"D"
30x3	\$ 9.45	\$10.55	\$10.95	\$16.35	\$18.10
30x31/2					
32x31/2		15.40			
34x4	20.35	22.30	23.80	31.15	33.55
36x41/2	28.70	32.15	33.60	41.85	41.40
37x5		39.80			

If you are charged less for any other make than Goodrich, they are taking it out of the tire; if you are charged more, they are taking it out of you.

athlete is all brawn and muscle-no fat

'T was their only "come-back." They had to say that, in stripping down prices to the point where they were fair to dealer and consumer and left no room for injurious price-cutting tactics, we had stripped our tires of some quality, too.

.

THE Goodrich Tire, like the trained athlete, is all brawn and muscle-no fat. It represents an achievementthe ability to cut out the extra costs of manufacture, the extra costs of labor, of extra, needless material, and to give you the best, long-mileage, high-standard tire in the world.

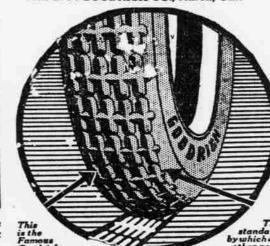

There are padded tires as well as padded price lists.

Don't pay for padding.

Now don't forget this-we are talking in the main about Goodrich Safety Tread Tires, for they represent ninety per cent of our factory output for resale.

Furthermore, while we have put the padded prices on smooth tread tires on the run, the evil of padded prices on non-skid tires still is in evidence, as shown in table below:
